Subject: RE: very rough first draft of Action memo

Richard:

Thank you, I started working on it on Friday. I do have some questions for background?

Mine water characterization (historic – prior to spill and at time of spill)

Mine water volume releasing to the Cement Creek prior to the release and historic.

Polrep 2 for GKM Removal Assessment (It appears the release was a result of a Removal Assessment rather than a Removal Action as I see no Action Memo for GKM – Is that correct?)

Timeline for the Release/Response

Thanks

Subject: very rough first draft of Action memo

I need to add more background, some photos, and go over the whole thing. Let me know what edits you see are needed, or go ahead and make them and send me the revised version. I left the Enforcement Section blank. Thanks!
